GARDENS & HOMES:

The Washington Design Center's *Fall Design House* is open through December 12. The Center, which is in Southwest DC, partnered with ***Southern Living*** magazine and leading designers and architects to present a house with the theme of ***Potomac Fever***. Each room in the house represents one of the city's eight different historic districts. Students from ***City Arts D.C.*** have created a mural at the entry to the Design House and have worked with participating designers to customize one-of-a-kind artwork for the rooms. To read more about City Arts D.C., visit www.cityartsdc.org
